Backend & APIs: Node.js, REST, GraphQL, tRPC, WebSockets, Server-Sent Events

Data & Security: PostgreSQL, MySQL, Redis, Prisma, JWT, OAuth 2.0, NextAuth/Auth.js

Cloud & Quality: AWS, Cloudflare Workers, Docker, GitHub Actions, Nginx, Vitest, Cypress, Playwright, Lighthouse

AI: RAG, LLM integration, Dify, agent workflows

PROFESSIONAL EXPERIENCE

Software Engineer | Ninja Digital Innovations Ltd. | Jul 2025 – Present | Dhaka, Bangladesh

- Develop production React/Next.js and TypeScript features, integrating REST APIs, relational data, and reusable responsive components across corporate and business applications.
- Implement Node.js/Prisma-backed workflows with organization-scoped role-based access, supporting differentiated permissions for users, admins, owners, and super admins.
- Trace duplicate requests and news-content inconsistencies; contribute API/data-fetching corrections and regression checks to support more consistent application behavior.
- Investigate Lighthouse score variability and cross-breakpoint UI defects; document findings, verify fixes, and coordinate release QA with Japan-based stakeholders.

Software Engineer | Brand Cloud Inc. | Mar 2023 – Jun 2025 | Remote, Japan

- Delivered customer-facing Next.js/TypeScript features for MoeGuide and Suirikyou, including destination content, assessment/certification flows, API integrations, and Stripe payment states.
- Translated Figma specifications into reusable responsive interfaces and resolved device-specific layout and interaction defects.
- Contributed Cypress end-to-end tests, code reviews, and sprint delivery in collaboration with Japanese engineers and product stakeholders.

Software Engineer | Suncreer Co., Ltd. | Dec 2022 – Feb 2023 | Remote, Japan

- Developed inventory, purchasing, sales, and reporting workflows using React, Laravel, MySQL, and REST APIs.

Software Engineer | Bconns Technologies Ltd. | Oct 2021 – Mar 2022

- Built React screens and REST integrations for inventory, stock, purchasing, and sales operations.

SELECTED PROJECTS

Brand Cloud Corporate Website | brandcloud.co.jp

Contributed to WordPress-to-Next.js modernization with responsive corporate pages and API-driven news interfaces. Investigated duplicate fetches, content inconsistencies, image display, and Lighthouse performance issues.

Tech: Next.js, TypeScript, Tailwind CSS, REST APIs

KnowledgeLinks AI (Raggie) | knowledgelinks.ai/lp1/

Developed interfaces for an enterprise knowledge platform using retrieval-augmented generation and AI agents. Integrated tRPC endpoints and Prisma/PostgreSQL-backed data flows, including asynchronous loading and error handling.

Tech: Next.js, TypeScript, tRPC, PostgreSQL, Prisma, RAG

Suirikyou | suirikyou-brandcloud.vercel.app

Implemented assessment and certification experiences with backend-connected workflows and Stripe payment interactions, including explicit loading, success, and error states.

Tech: Next.js, TypeScript, Stripe, APIs

MoeGuide | moeguide-app.vercel.app

Built destination-content and itinerary interfaces, integrated travel-content APIs, and refined mobile/desktop usability through reusable components.

Tech: Next.js, React, TypeScript, REST APIs

ADDITIONAL PROJECTS

Brand Cloud Service Website (solution.brandcloud.co.jp): Responsive service pages and dynamic content in a WordPress-to-Next.js migration.

Online Reputation Management (private): Brand-monitoring UI, risk-keyword signals, and REST API-connected review workflows.
